

How I Determined Pricing and Price Schedules

Thank you for taking time to review my pricing pages. To be practical, I have included only the most commonly requested types of photography. In any case, please realize that the prices shown are merely estimates of costs based on my experience and many assumptions on what you may require. Whether or not your project can be neatly pigeon-holed into the categories listed below, please contact me for a detailed estimate of charges.

IMPORTANT INFORMATION REGARDING PRICING

My price structure is based on a variety of factors, primarily usage and the number of images created. With the exception of one type of photography, I do not embrace the concept of time-based billing. If you'd like to read more detailed information about how I've established my rates, please click <http://www.hkphoto.com/services/faq/pricing-strategy>

The following miscellaneous fees are applicable to all shoots:

- Prep Days billed at 50% of the creative fee
- Travel Days billed at 50% of the creative fee
- Weather Days billed at 100% of the creative fee
- Cancellation 48-72 hours before: 50% of creative fee + relevant expenses
- Cancellation 24-48 hours before: 100% of creative fee + all expenses

Please select the type of photography you require from the list below. Note, however, every shoot is different, and, while these estimates are based upon the most common types of photography requested, please contact me after reviewing these pricing guides so that I may create an estimate for your specific project.
